# NERO

WALLING SYSTEM

New for 2018/19

## Introducing Nero

Our newest exhibition walling system, aptly named 'Nero' is the sleekest option on the market - combining the modern look of flush walling with a black feature frame system.

The multi-purpose modular wall system is suitable for a variety of applications with an array specialised accessories that offer a flexible and cost effective upgrade stand solution.

The frame system is complimented with a black fascia panel that can be backlit and unobtrusive miniature black LED lights for stand illumination.

### Extensive options for walling & displays

The striking black frame can be complimented with our diverse selection of wall panels.

Finer details
