

JBL VTX-A8

The VTX A8 is a compact next-generation line array loudspeaker featuring JBL Professional's flagship VTX A Series technology for small to mid-size rental and installed sound applications. Designed for production companies, theaters, houses of worship, and as front fills or side arrays in larger VTX systems, it delivers powerful, consistent performance with 110° horizontal coverage. Its dual 8" woofers, four 3.5" midrange drivers, and dual 2" high-frequency drivers provide exceptional clarity and output, while advanced low-frequency port design extends response down to 49 Hz. The VTX A8 also features patented VTX A Series rigging for fast, efficient deployment and flexible configuration.

Physical

Physical size	227 mm x 761 mm x 375 mm (8.9 in x 29.9 in x 14.7 in)
Item weight	29.5 kg

Drivers

LF driver	(2) JBL 258J 8-inch woofers
HF driver	(2) JBL 2423K, 2-inch annular diaphragm compression drivers

Electrical

Rated power	N/A
Power handling (RMS)	N/A
Nominal impedance	LF = 8 ohms, MHF = 8 ohms

Input / Outputs

Input / Outputs Type	NL4
----------------------	-----

Parameters

Frequency response	50Hz - 19kHz (-10dB)
Max SPL	139 dB

Environmental

IP rating	IP55
-----------	------

Accessories

Accessories	VTX A8 AF Array Frame, VTX A8 AF EB Extension Bar, VTX A8 SB Suspension Bar, VTX A8 MF Mini Frame, RC500 Rotating Clamp, VTX DELTA Delta Plate, VTX A8 VT Vertical Transporter, VTX A8 VT CVR Cover, VTX A8 BP Base Plate
